President Trump signed Congress' tax reform package and most of the new rules went into effect in 2018; have you read them yet? As if tax time isn't confusing enough, filing in 2019 will be even more baffling following the new law which nearly doubles the standard deduction amount. If you're wondering how you're affected, not to worry, we have your back. Ms. Blyweiss will explain how these changes will affect your 2018 tax return; and, to make sure you're prepared for these changes, she will talk about the income brackets, tax rates, and credits, in addition to the typical deductions. Plan to attend; you will be glad you did.
